The Notes Below Are An Integral Part of this Report | Track Record Compiled By: CSI

Program Description: Program methodology is rooted in human observation of repeatable market behavior, carefully quantified and translated into mechanical intraday trading systems that have stood the test of time. Success is partially derived from minimizing drawdown, decelerating losing periods, and maintaining daily risk between 0.5%-1.5% of the trading level.

+ **NOTES:** The tables on the following pages represent the past performance results, in capsule format, for a composite of all client accounts traded by the Advisor and/or its principal Sam Beckers. Specifically, the principal of the Advisor, Sam Beckers, previously operated as a sole proprietor Commodity Trading Advisor from March 14, 2012 and continues to do so Sept 2015. While Mr. Beckers was operating as a sole proprietorship he established and branded the name "Soaring Pelican Automated Systems" as a "doing business as" identity. This name would eventually be utilized when forming "Soaring Pelican, LLC" which is the current advisor presenting the strategy included within this document. For all intents and purposes the strategy offered in this document is identical to that which was offered by Mr. Beckers as a sole proprietorship CTA doing business as "Soaring Pelican Automated Systems."

Previous to Mr. Beckers being regulated, that is prior to March 14, 2012, Sam Beckers as an unregistered individual, traded customer accounts but was exempt from registration with NFA pursuant to section 4m(1) of the CEA. Section 4m(1) is utilized by traders who advise less than 15 customer accounts and do not publically hold themselves out as a commodity trading advisor. Accordingly, the composite information presented in the capsules on the following pages prior to Mr. Becker's being registered with the CFTC on March 14, 2012.

** The drawdown begins in the month listed as start. The length in months of the drawdown is listed under length. The recovery begins in the following month, and the length of the recovery period is listed under recovery. The date listed as end is the month that the program recovered from the drawdown.

Please note that the monthly performance numbers, ROR and Drawdowns are based on end of month values and are not reflective of intramonth volatility.

Statistical Notes

1. Peak to Valley Drawdown ("Maximum Drawdown") is the worst drawdown % loss over the period of 2019-01-31 to 2024-09-30
2. The Annualized Compounded ROR is the average return of an investment over a number of years. It smoothes out returns by assuming constant growth.
3. Calmar Ratio Uses last 36 months of Data

ROR = Rate of Return

AG CTA Index: The Autumn Gold CTA Index is a Non-Investable Index comprised of the client performance of all CTA programs included in the AG database and does not represent the complete universe of CTAs. CTA programs with proprietary performance are not included. Monthly numbers are updated until 45 days after the end of the month. Investors should note that it is not possible to invest in this index.

This report has been prepared from information provided by the Trader and is believed to be reliable. This report should be read in conjunction with the Trader's Disclosure Document.

PAST PERFORMANCE IS NOT NECESSARILY INDICATIVE OF FUTURE RESULTS. TRADING FUTURES AND OPTIONS INVOLVES SUBSTANTIAL RISK OF LOSS AND IS NOT SUITABLE FOR ALL INVESTORS. THERE ARE NO GUARANTEES OF PROFIT NO MATTER WHO IS MANAGING YOUR MONEY. THERE IS AN UNLIMITED RISK OF LOSS IN SELLING OPTIONS. YOU SHOULD CAREFULLY CONSIDER WHETHER COMMODITY FUTURES AND OPTIONS IS SUITABLE FOR YOU IN LIGHT OF YOUR FINANCIAL CONDITION. AN INVESTOR MUST READ AND UNDERSTAND THE MANAGER'S CURRENT DISCLOSURE DOCUMENT BEFORE INVESTING.
