+ **NOTES:** Performance is calculated and shown net of all trading fees and net of a fee structure which includes a 2% management fee and a 20% performance fee applied monthly. During some months in 2023, there were notable fluctuations in the client's notional funding, including additions, withdrawals, and adjustments to their trading levels, which have led to losses in client accounts on a cash basis. For example: In March 2023 across one client's multiple accounts, the trading levels began at around \$600K, increased to \$4.8M intramonth, and decreased back to \$300K at the end of the month. The March 2023 rate of return was 0.23%; this client experienced a loss of \$74,524 on a cash basis across all their accounts.

A Qualified Eligible Person ("QEP") must meet the following two requirements: 1) the investor must first be an accredited investor.
