**Program Description:** The strategy pursues tactical opportunities in G5 equity and sovereign bond indexes, as well as currencies and commodities.

- \* We focus on turning points in market narratives, as well as trades around important macro events
- \* The strategy is directional and is concentrated on 1-2 themes at a time
- \* Investment decisions factor in economic fundamentals, price action, investor sentiment and positioning, as well as potential price catalysts

Risk management was tightened in Q3 2021 to reflect expectations of growing economic uncertainty and market volatility. As part of that, trading became more catalyst-oriented with smaller trade sizes. As a result, portfolio volatility decreased substantially.

+ **NOTES:** As of Nov 30, 2023, Anton Barinov maintained discretionary authority over 15 client accounts all of which were qualified as accounts of family and friends. Since March 2020, Anton Barinov has been operating pursuant to Section 4m (1) of the Commodity Exchange Act whereby an exemption from CTA registration exists for a person that has not furnished commodity trading advice to more than 15 persons and does not hold himself out generally to the public as a CTA.

The net portfolio returns and AuM represent those of one client that executed power of attorney with Anton Barinov, with NAV of \$10,0m as of Nov 30, 2023.

Net portfolio returns were calculated by Compliance Supervisors International Inc. (CSI) net of pro-forma performance fee of 20% based on monthly statements, independently obtained by CSI from a broker.

Risk management was tightened in Q3 2021 to reflect expectations of growing economic uncertainty and market volatility. As part of that, trading became more catalyst-oriented with smaller trade sizes. As a result, portfolio volatility decreased substantially.

A Qualified Eligible Person ('QEP') must meet the following two requirements: 1) the investor must first be an accredited investor. The most common ways for this are to either have a net worth of \$1,000,000 or more OR an annual income of \$200,000 or more for the last two years OR, combined with a spouse, \$300,000 per year for two years, 2) the investor must meet an additional portfolio requirement, which is having \$2,000,000 in securities holdings OR \$200,000 in margin on deposit with a Futures Commission Merchant OR a combination of the two (for example, \$1,000,000 in securities and \$100,000 in margin).

\*\* The drawdown begins in the month listed as start. The length in months of the drawdown is listed under length. The recovery begins in the following month, and the length of the recovery period is listed under recovery. The date listed as end is the month that the program recovered from the drawdown.

Please note that the monthly performance numbers, ROR and Drawdowns are based on end of month values and are not reflective of intramonth volatility.

#### Statistical Notes

1. Peak to Valley Drawdown ("Maximum Drawdown") is the worst drawdown % loss over the period of 2020-03-31 to 2024-08-31
2. The Annualized Compounded ROR is the average return of an investment over a number of years. It smoothes out returns by assuming constant growth.
3. Calmar Ratio Uses last 36 months of Data

#### ROR = Rate of Return

**AG CTA Index:** The Autumn Gold CTA Index is a Non-Investable Index comprised of the client performance of all CTA programs included in the AG database and does not represent the complete universe of CTAs. CTA programs with proprietary performance are not included. Monthly numbers are updated until 45 days after the end of the month. Investors should note that it is not possible to invest in this index.

**SP 500 TR:** The S&P 500 indices are designed to reflect all sectors of the U.S. equity markets. The S&P 500 includes 500 blue chip, large cap stocks, which together represent about 75% of the total U.S. equities market. Companies eligible for addition to the S&P 500 have market capitalization of at least US\$3.5 billion. The TR Index accounts for the reinvestment of dividends.
